

KORDA TRADE CATALOGUE

www.korda.co.uk

PLACING AN ORDER

This couldn't be easier. Just fill in a pricelist/order form and send it to sales@korda-eu.com. You can also place orders by using Korda Business or by simply picking up the phone and call our office.

Tel: 0031 4554 70880

Email: sales@korda-eu.com

Fax: 0031 4554 70889

DELIVERY

We will endeavor to dispatch your order within 72 hours, subject to your account being up to date. Credit control is very strict on late payments and this will delay your order being dispatched, so please make sure all invoices are paid on time. All orders are dispatched via DHL, should you wish to track an order please call our office and they will be more than happy to help you.

Tel: 0031 4554 70880

Email: sales@korda-eu.com

CARRIAGE PAID ORDERS

All orders placed over the value of £300 excluding VAT will be dispatched free of charge. Any orders below this value will incur a carriage fee (charges may vary). Carriage-paid orders may include a mixture of Korda and Guru items.

WELCOME...

... to the latest and greatest edition of the Korda trade catalogue. We've got a huge amount of new kit to showcase so please take some time to look through and familiarise yourself with our latest gear. As ever, we are totally committed to our retailers, and we are doing more than ever to promote our new releases and core product with cutting-edge marketing that will drive customers to your shop. A prime example of this is the latest Korda 'Masterclass' DVD. Not only do we have the worldwide distributed UK version, delivered by the likes of Danny Fairbrass, Darrell Peck and Tom Dover.

In France and Germany we already have successfully released 2 native Masterclass DVD's. Spring 2018 will also see the release of a Dutch version. These are all packed with detailed product information and full of detailed tactical advice, tips and hints.

We are also more active than ever on the social media platforms, whilst constantly working on new and existing projects to help sell the kit that you buy from us.

Thanks for your support,

TEAM KORDA

POINT OF SALE

Product racking and other POS material is available. Please speak to your account manager or the Korda sales team.

TRADE PACKS

Please be aware that the most of our products are packed in trade packs. The number of products in these trade packs can vary and some are even packed as single items. In our pricelists you can see exactly how many units there are in one trade pack for each individual product.

CUSTOMER SERVICE

If you or any of your customers should have any product-related enquiries please do not hesitate to contact our office. Our team will be more than happy to help you.

Heli Safe - 2 per pack

This elegant solution to an age-old problem came as a result of many, many months of painstaking development, endless sampling and rigorous testing. Quite simply, this little product is set to revolutionise helicopter-rig fishing, especially in weedy or snaggy waters. It allows the lead to be ejected from the leader or main line, which makes landing fish easier. What's more, If the angling situation does not require the lead to be dropped, a locking collar can be inserted into the clip which prevents it from opening. The clip can be used with leads with or without the swivel removed (see opposite), depending on the preference of the angler.

CODE	DESCRIPTION
KHDG	Green
KHDB	Brown

Lead Clips / 10 per pack

A purpose-designed safety clip designed to hold your lead on the cast, yet allow the lead to eject with ease should it become snagged during a fight.

CODE	DESCRIPTION
KLCSW	Weed
KLCSS	Gravel
KLCSG	Silt
KLCS	Clay

QR Lead Clips / 10 per pack

These clips ensure rapid lead ejection in weedy or snaggy conditions. They are shorter in length and have been engineered with special grooves, which allow the Tail Rubber to slide off under minimal pressure.

CODE	DESCRIPTION
KQRWS	Weed / Silt
KQRCG	Clay / Gravel

Hybrid Lead Clips / 8 per pack

Lead clips that have a size 8 Ring Swivel permanently molded into the body. Because the clip and swivel are inseparable, the lead will drop off every time it becomes snagged.

CODE	DESCRIPTION
KHCW	Weed
KHCC	Clay
KHCS	Silt
KHCG	Gravel

QC Hybrid Lead Clips / 8 per pack

The Quick Change version of the Hybrid Lead Clip makes allows the angler to change rigs in no time.

CODE	DESCRIPTION
KQHCWS	Weed / Silt

Lead Clip Action Pack

All the bits you need to construct a fully functioning lead clip system. Each pack contains five Lead Clips, Tail Rubbers, swivels and 2m of rig tube. Action Packs are available in the four Safe Zone colours.

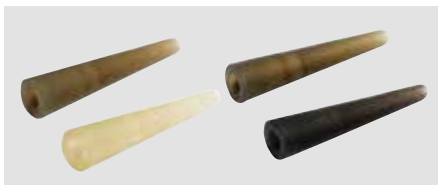

CODE	DESCRIPTION
KLCAPW	Weed
KLCAPG	Gravel
KLCAPS	Silt
KLCAPC	Clay

Sinking Rig Tube / 2m per pack

Tubing that can be used with all lead systems in the Korda range. It helps to prevent tangles, gives added abrasion resistance and comes in a range of colours to blend in with various lakebed conditions.

CODE	DESCRIPTION
KTW	Weed
KTGR	Gravel
KTS	Silt
KTC	Clay

Tail Rubbers / 10 per pack

Tapered sleeves that fit snugly onto any Korda lead clip and keep the lead in place during casting. They tail also fit to the top of any Korda inline lead, forming a smooth join between the rig tube and the lead.

CODE	DESCRIPTION
KRW	Weed
KRGR	Gravel
KRS	Silt
KRC	Clay

Hybrid Tail Rubbers / 10 per pack

Designed for specific use with the Hybrid Lead Clip when using heavy lines and leaders.

CODE	DESCRIPTION
KHRCG	Gravel / Clay
KHRWS	Weed / Silt

SafeZone Anti-Tangle Sleeves / 25 per pack

These sleeves help push the hook link away from the lead system during the cast and even help to reset the rig after it's been rejected by a carp. They can be used with any lead arrangement.

CODE	DESCRIPTION
KATSW	Weed
KATSC	Clay
KATSS	Silt
KATSG	Gravel

Tungsten Anti-Tangle Sleeves / 8 per pack

Tapered anti-tangle sleeves that have been impregnated with tungsten to make sure that they sink extremely well, helping to pin the terminal tackle firmly to the lake bed.

CODE	DESCRIPTION
KDMATL	Long
KDMATS	Short

Solidz Tail Rubber / 10 per pack

Extra-long, slim tail rubbers that have been designed for use with Solidz PVA bags and inline leads. Once filled, the bag can be moistened and twisted around the long rubber, securing it in place for even the longest casts.

CODE	DESCRIPTION
KPTR	Green

5mm & 4mm Rubber Beads / 25 per pack

These soft rubber beads have a multitude of uses. Use them to prevent flying leads sliding onto your leader, to create the popular 'Shokka Rig' or as an anchor to hold a helicopter rig in place on a Safe Zone Leader.

CODE	DESCRIPTION
K4RBG	4mm Green
K4RBB	4mm Brown
K5RBG	5mm Green
K5RBB	5mm Brown

Shok Bead / 15 per pack

A small, tapered bead that a size-8 swivel fits perfectly inside. It can be used for running rigs, marker floats or any type of setup that requires a buffer bead.

CODE	DESCRIPTION
KSK	Green

Size 8 Ring Swivels / 8 per pack

Our size 8 swivels with a large ring attached to one eye. This provides the ultimate in flexibility, enabling the hook link to fold back against the rig tubing on the cast, which prevents tangles.

CODE	DESCRIPTION
KR8	Non-reflective coating

Size 11 Ring Swivels / 8 per pack

These small Ring Swivels are perfect for use on helicopter systems and are often used with chod and hinged-stiff rig setups.

CODE	DESCRIPTION
KR11	Non-reflective coating

Running Rig / 5 per pack

All the components needed to make five running rig set ups. Each pack contains Big Eye Swivels, Kwik Links, Shok Beads and 3mm Silicone Sleeves.

CODE	DESCRIPTION
KRR	Green

Big Eye Swivels / 10 per pack

A multi-purpose swivel, ideal for use with running rigs.

CODE	DESCRIPTION
KBES	Non-reflective coating

Chod Swivels / 8 per pack

These size-eleven ring swivels have been subtly re-engineered to allow for putty to be securely moulded around the barrel. The team set about designing a swivel that would provide more purchase for the putty counterweight. These little beauties are the result...

CODE	DESCRIPTION
KCHS	Non-reflective coating

Size 8 Swivels / 20 per pack

This swivel fits snugly in all of our lead clips and inline leads. A non-reflective finish and breaking strain of over 60lb make this the swivel that all others are judged against.

CODE	DESCRIPTION
KS20	Non-reflective coating

Size 8 QC Swivel / 10 per pack

The classic Korda size 8 swivel re-engineered to feature a quick change loop, allowing the angler to change hook links in an instant.

CODE	DESCRIPTION
KQS20	Non-reflective coating

Size 8 QC Ring Swivel / 8 per pack

The size 8 quick change swivel with a large ring attached to the eye. Ideal for fishing helicopter style.

CODE	DESCRIPTION
KQR8	Non-reflective coating

Size 11 QC Ring Swivel / 8 per pack

Perfect for changing rigs quickly when fishing helicopter style, or for creating the popular Spinner Rig favoured by Danny Fairbrass and Tom Dove.

CODE	DESCRIPTION
KQR11	Non-reflective coating

Size 11 QC Round Ring Swivel / 8 per pack

Designed as the ultimate quick change swivel for chod and hinge rigs.

CODE	DESCRIPTION
KRQR11	Non-reflective coating

Stick Klips / 20 per pack

A slim, quick-change clip designed for speedy rig changes when using PVA sticks.

CODE	DESCRIPTION
KSCS	Small
KSCM	Medium

Ring Klip / 20 per pack

A quick-change clip that gives the hook link excellent freedom of movement when clipped onto a size-8 swivel.

CODE	DESCRIPTION
KRKP	Non-reflective coating

Spare Insert Large / 10 per pack

Robust, plastic inserts designed to fit all inline leads, which allow a size-8 swivel to be semi-fixed inside.

CODE	DESCRIPTION
KSIL	Green

Shock Leader Sleeves / 10 per pack

Soft, flexible sleeves that fit inside an inline lead to allow a size-8 swivel to be semi-fixed within.

CODE	DESCRIPTION
KSS	Green

Kwik Link / 20 per pack

A universal quick-change link for attaching leads, Link Loops or marker floats to swivels. Available in two sizes.

CODE	DESCRIPTION
KWL	Standard Size
KWLXS	Extra Small

Run Rig Rubber / 10 per pack

A shoulder has been angled on the rubber at 30 degrees, allowing the lead to sit at a much better angle than any standard running rig setup, minimising the chance of tangles during the cast.

CODE	DESCRIPTION
KRRRW	Weedy Green
KRRRC	Clay
KRRRS	Silt
KRRRG	Gravel

Heli Sleeve / 10 per pack

The Heli Sleeve will sit neatly over a Kwik Link when threaded onto a Dark Matter or leadcore Leader when using a helicopter or chod style set up. It prevents tangles and grips the Kwik Link thanks to the special rubber compound.

CODE	DESCRIPTION
KHRG	Green
KHRB	Brown

Solidz PVA Bag System - XS & S, 25 per pack / M & L, 20 per pack

The Solidz range of bags has been designed to offer an alternative to the Funnel Web Systems. Solid bag fishing has become an increasingly popular method of delivering a compact package of bait at any range and in all conditions. Solidz are manufactured at Korda HQ to a stringent specification using the highest grades of Japanese PVA film available. Packaged in a resealable wallet with easy-to-follow instructions. Each pack comes with a unique flat-packed Korda bag loader to make easy work of filling them. Available in four sizes to cover all situations and colour coded for easy recognition.

CODE	DESCRIPTION
KPVA1	Extra Small
KPVA2	Small
KPVA3	Medium
KPVA4	Large

Original Funnel Web PVA System

This is the widest mesh of them all designed to create PVA bags of pellets and boilies etc.

CODE	DESCRIPTION
KFW1	Tube, Kompressor & 7m of Funnel Web PVA
KOHR5	5m Hexmesh Refill
KOHR20	20m Hexmesh Refill
KOMR5	5m Micromesh Refill
KOMR20	20m Micromesh Refill

Boilie Funnel Web PVA System

This medium-width mesh is ideal for making large PVA sticks or small, compact bags of boilies.

CODE	DESCRIPTION
KBFW1	Tube, Kompressor & 7m of Funnel Web PVA
KBHR5	5m Hexmesh Refill
KBHR20	20m Hexmesh Refill
KBMR5	5m Micromesh Refill
KBMR20	20m Micromesh Refill

Long Chuck Funnel Web PVA System

The narrowest mesh has been designed to create the ultimate PVA stick for long-distance casting.

CODE	DESCRIPTION
KLCFW1	Tube, Kompressor & 7m of Funnel Web PVA
KLCHR5	5m Hexmesh Refill
KLCHR20	20m Hexmesh Refill

PVA SYSTEMS & SINKERS

PVA SYSTEMS

Spread-Em PVA Tape / 5m

This woven tape has a coarse texture to its flat cross section; this makes it perfect for stringers because the texture will actually hold the baits apart even with the force of the cast.

CODE	DESCRIPTION
KPT	5m Dispenser

Total Dissolve PVA String / 15m

Pull your baits onto a loop of string and then hand the string over the hook and then pull the top bait back up against the hook to tighten the loop so the loop cannot slip back off the hook in flight.

CODE	DESCRIPTION
KPS	15m Dispenser

Kwik-Melt PVA Tape / 10mm

Kwik Melt tape has become the favourite PVA tape for many of our most-admired big-carp anglers. It's great for stringers, as well as tying off PVA bags and securing hairs on the cast.

CODE	DESCRIPTION
KEMT	20m Dispenser

Kwik-Melt PVA Tape / 5mm x 40mm

A handy twin dispenser offering 2 spools of solid 5mm PVA tape in a single convenient package.

CODE	DESCRIPTION
KEMT5	2 x 20m Dispenser

Dark Matter Sinksers / Large 9 per pack / Small & Medium 12 per pack

Another industry first from Korda. A Sinkers is an elongated, tungsten bead that grips hook link materials and main line. They are designed to help pin the rig to the lake bed and are available in Weed Green and Gravel Brown.

CODE	DESCRIPTION
KSKSG	Small Green
KSKMG	Medium Green
KSKLG	Large Green

CODE	DESCRIPTION
KSKSB	Small Brown
KSKMB	Medium Brown
KSKLB	Large Brown

TACKLE & RIG STORAGE

TACKLE & RIG STORAGE

Chod Safe

If you use chod rigs, or hinged stiff rigs then you're going to want one of these neat cases. They're an impact-proof way to curve and store up to 28 perfect Mouth Trap hook sections, of a range of lengths. Two different diameter sections allow you to set, and keep both short and longer pre-tied chod rigs in the perfect fish-catching curve. What's more, there's also space for three pre-tied leadcore leaders (or similar) with Heli-Safe beads attached. Those clever design bods have engineered a pop-up handle to allow you to steam your chods into the perfect curve, without burning your fingers too!

The ChodSafe is finished in a soft-touch rubber and features a neat magnetic closure system to prevent it opening in transit. Each ChodSafe comes with thirty pins to secure your rigs to the foam-lined cylindrical sections.

CODE	DESCRIPTION
KBOX2	Soft touch green rubber

Mini Rig Safe

We've overhauled our rig-storage solutions recently, and this new Rig-Safe is the result. It's robust and compact, yet it will hold up to 60 pre-tied rigs! As you'd expect, we've tweaked the design to include several neat upgrades compared to the traditional rig box.

CODE	DESCRIPTION
KBOX1	Soft touch green rubber

CODE	DESCRIPTION
KPIN1	Spare single pins x 30
KPIN2	Spare double pins x 20

TACKLE & RIG STORAGE

Mini Rig Safe Combi

Unlike the other Rig-Safe models, this one also provides storage for small essential rig components, such as boilie stops, beads, swivels, shrink tube and anything else of a similar size. These are kept in the 12 secure compartments that fill one side of the case, which snap shut to ensure there is no chance of them spilling out during transit.

The other side of the Mini Rig-Safe Combi will hold 20 rigs of up to eight inches in length, which are stored neatly and held in place via the pins provided. It comes supplied with 15 standard pins for storing finished rigs on the high density foam board, plus 10 double pins that will hold rigs in place that are yet to have a swivel or similar attached to them. It features the specially machined, ridged aluminium bar that is found on the other Rig-Safe models, and is designed to retain your hooks in perfect condition and keeps them razor sharp, plus the way it has been made ensured that curved shrink tube and 'kickers' stay the correct shape during storage.

The Mini Rig-Safe Combi is made from high impact plastic and is incredibly strong, plus it is finished in soft touch rubber to allow a good grip in wet conditions. The clever magnetic locking system ensures that it can't come open during transit, but there are no latches to fiddle about with top open and close it when you have cold hands!

CODE	DESCRIPTION
KBOX4	Soft touch green rubber

Large Rig Safe

Those of you who use longer rigs or need more storage space will love the Large Rig-Safe! This is the ultimate rig storage system for anyone looking for more capacity than the existing Mini Rig-Safe offers, or needs somewhere to store pre-tied rigs of 12 inches or longer. It will hold up to 90 rigs, thanks to one side of it featuring double-ended storage, and the clever magnetic locking system means that it will never come open accidentally during transit, but is very easy to open when you want to, even with cold hands!

The Large Rig-Safe features a specially machined, ridged aluminium bar to retain the hooks and keep them razor sharp until you're ready to use them, and it has been shaped so that if you're using a curved shrink tube kicker it retains its shape if you store them point upwards. It comes supplied with 30 standard pins to hold swivels or loops in place on the high density foam inner, and prevent tangles, or if you prefer to tie your rigs to the right length when you arrive at the water, then you can make use of the 20 double pins which will keep those in place, rather than in a knotted mess!

It is made from high-impact plastic, meaning that it is very strong, and is finished in soft-touch rubber, which not only feels nice in your hands but allows a good grip on it even when wet. The outside is marked up to 12 inches or 30 cm, so you can tie your rigs to exactly the length that you require.

CODE	DESCRIPTION
KBOX3	Soft touch green rubber

Tackle Safe

The Tackle-Safe provides the perfect end tackle storage solution for the mobile angler. Like the Rig-Safe range, it is made from high-impact plastic, meaning that it is very strong, and is finished in soft-touch rubber, which not only feels nice in your hands but allows a good grip on it even when wet. It features 29 different compartments of assorted size, allowing plenty of opportunity for storing even the smallest tackle items securely. It also comes supplied with a set of stickers that allow the angler to label each compartment with the contents.

CODE	DESCRIPTION
KBOX5	Soft touch green rubber

TACKLE & RIG STORAGE

TACKLE & RIG STORAGE

Compac Luggage System

The Compac luggage system provides a neat and water resistant storage solution for terminal tackle and other angling essentials. Made from high quality EVA fabric, it is strong, durable and extremely light, helping you to stay organised and mobile on the bank.

There are four different sizes and shapes available to suit every situation.

Compac Small 100

The Compac Small 100 is the smallest one in the Compac Luggage range. This makes it a lightweight but extremely strong storage solution for all your leads or the tiniest bits of tackle.

CODE	DESCRIPTION
KLUG01	Compac small 100

TACKLE & RIG STORAGE

TACKLE & RIG STORAGE

Compac Medium 125

The Compac Medium 125 version makes an ideal pouch for all those little pieces of tackle spread around your carryall bag or rucksack.

It can also be used to prepare and store your stick mixes. Thanks to the high quality EVA fabric cleaning it afterwards will never be easier.

CODE	DESCRIPTION
KLUG02	Compac medium 125

Compac Large 140

In combination with the new Korda Tacklesafe, the Compac 140 is the perfect allround storage solution.

The main compartment gives room to all your hooklinks, leaders, Krimp Tool and other essentials you need at the bank, and you'll still be able to store your tacklebox as well. This way, you have everything you need at hand in a compact, strong and lightweight pouch.

CODE	DESCRIPTION
KLUG03	Compac large 140

Compac XL 200

The largest version in the Compac Luggage range, the Compac XL 200, is perfect for all the bigger pieces of kit you need at the bank.

All your spods, markerfloats, krushers and other 'bigger' essentials can now easily be tucked away in a very neat and compact way.

CODE	DESCRIPTION
KLUG04	Compac XL 200

Krank - Barbed & Barbless - 10 per pack

The unusual Krank pattern is the brainchild of product development maestro, Tom Dove. Tom wanted a wide-gaped hook with a beaked point that had the swept shank of the Kurv Shanks that he'd enjoyed so much success on! After painstaking development, the Krank was born.

CODE DESCRIPTION

A coloured PTFE coating allows these hooks to blend with the lakebed more effectively than any others. The special coating has been applied to all but the point of the hook, making the Kaptor range the sharpest hooks on the market. Every needle-sharp point is then 'Kapped' to prevent damage. The hooks are packed and clipped into a bespoke box for safe storage. This range is available in Wide Gape, Kurv Shank and Choddy patterns.

Kickers - Mixed yellow & pink - 10 per pack

On some waters adding a touch of colour to the hook can produce quicker bites, which is why they also come in a choice of bright colours. Yellow and pink have already proved very successful during testing.

CODE	DESCRIPTION
KICK07	Small (10 - 12)
KICK08	Medium (6 - 8)
KICK09	Large (2 - 4)

Kickers - Mixed red & white - 10 per pack

Another variation that's well worth a try, whether you're fishing bottom baits or zigs.

CODE	DESCRIPTION
KICK10	Small (10 - 12)
KICK11	Medium (6 - 8)
KICK12	Large (2 - 4)

Micro Rig Swivel / 20 per pack

From bait attachment, to combi-rig construction, the Micro Rig Swivel has a host of rig applications. It's perhaps most widely used sliding on the shank of a hook, forming the blow-back element of many rigs.

CODE	DESCRIPTION
KMRS	Non-reflective coating

Link Loops / 15 per pack

A teardrop-shaped metal loop that is tied to the end of your hook link to enable you to quickly change rigs. They fit perfectly onto a Kwik Link or Stik Klip.

CODE	DESCRIPTION
KHLL	Non-reflective coating

Maggot Klip / 10 per pack

A time-efficient way of attaching maggots, medusa style. They feature a needle point to prevent the maggots bursting and fasten tightly into the clip for the perfect maggot presentation.

CODE		CODE	
KMKXS	Extra Small	KMKM	Medium
KMKS	Small	KMKL	Large

Rig Rings / 20 per pack

A range of non-reflective rig rings that enable you to make rigs like the chod rig, blowback rig or D-rig.

CODE	DESCRIPTION

KRRS	Small
KRRM	Medium
KRRL	Large
KRRO	Oval

Silicone Tube / 1.5m per pack

Fine-diameter, soft, silicone tubing that has a multitude of rig applications. It is often used to trap the hair to the hook shank, or short sections can be pushed over the hook eye to aid hooking when float fishing.

CODE	DESCRIPTION
KS05G	0.5mm Green
KS75G	0.75mm Green

RIG BITZ & CARP CARE

Silicone Sleeves / 20 per pack

These sleeves can be used to cover swivels on leads, Kwik Links, Stik Klips and Ring Klips, helping to keep everything tidy, secure and preventing tangles on the cast.

CODE	DESCRIPTION
KS3	Weedy Green

Tapered Silicone Sleeves / 10 per pack

A tapered version of our silicone sleeves.

CODE	DESCRIPTION
KTSSB	Brown
KTSSG	Green

Shrink Tube

Easy-to-shrink tubing that allows you to create a range of different rig presentations. Simply hold over steam and it will shrink down tight over hook eyes, swivels or knots. Available in 1.2mm, 1.6mm and an XL for very large hooks. The clear version is virtually invisible in water and is ideal for targeting particularly spooky fish.

CODE	DESCRIPTION	CODE	DESCRIPTION

Hook Beads / 20 per pack

These rubber hook beads fit tightly onto the shank of any hook pattern, and can be used to create a number of effective presentations. They're perfect for use with rig rings, to create blow-back rigs, or even variations of the all-conquering chod rig. They come supplied on easy-to-use screws, which each hold 10 hook beads.

CODE	DESCRIPTION
KHB	Green

Stiff Shrink Tube

Shrink tube, but not as you know it! This new range of shrink tube is incredibly rigid once shrunk down, allowing your kickers and shank extensions to really improve the mechanics of your rig. It's available in small, medium and large sizes to fit all hooks.

CODE	DESCRIPTION
KSST16	Small
KSST18	Medium
KSST27	Large

Super Wrap / 10 per pack

Perforated plastic coating for your hook baits that will help them resist the attentions of crayfish and other nuisance species, while still allowing attractors to leak off. To fit, simply insert the hook bait and steam the coating over a kettle to shrink it onto the bait.

CODE	DESCRIPTION
SW12	Small, 8-12mm baits

SURFACE, ZIG KIT & SCALES

SURFACE, ZIG KIT & SCALES

Zig Line - 100m spool

Our first dedicated zig and floater hook link is fine, supple and camouflaged – everything you need to fool wary carp. The line carries a subtle green tint that has been formulated to blend in sub-surface. Zig Line is available in 7lb, 9lb and 11lb, on handy 100m spools.

CODE	DESCRIPTION
KZIG7	7lb (3.2kg), 0.22mm
KZIG9	9lb (4.1kg), 0.25mm
KZIG11	11lb (5kg), 0.28mm

Mixa / 10 per pack

The Mixa has a super-short shank, which can be easily hidden beneath a floater hook bait, together with a huge gape and beaked point, which is offset to help hook cautious, pressured fish. This allows big fish to be landed on what is a relatively small, light hook.

CODE	DESCRIPTION
KMH6	Size 6
KMH8	Size 8
KMH10	Size 10
KMH12	Size 12

Mixa B / 10 per pack

A barbless version of this incredibly effective pattern.

Zig Magnet

These amazing little gadgets help you to cast even quite long zigs, without the worry of tangles. The magnetic plate holds your hook until you cast, keeping it, and the hook link, clear of the ground and possible snags. The Zig Magnet screws into all banksticks.

CODE	DESCRIPTION
KZM	High-vis Green

SURFACE, ZIG KIT & SCALES

Kruiser Control - 150m spool

This excellent main line has been formulated to give exceptionally smooth casting performance and its super-soft and supple nature makes for easy use of lightweight controllers and even freelined baits.

A low-gloss, clear finish and near-neutral buoyancy ensures that this line is difficult for the carp to see as it hangs discreetly in the surface film.

CODE	DESCRIPTION
KM6	6lb (2.7kg), 0.25mm
KM8	8lb (3.6kg), 0.28mm
KM10	10lb (4.5kg), 0.30mm
KM12	12lb (5.4kg), 0.33mm

Zig Box

This clip-lock zig storage system has been designed to help you store dozens of pre-tied zig rigs, as well as leaders and float hook links. It's supplied with four wide EVA spools, around which you can wrap your long hook links and leaders. You can even leave the rigs baited and ready to go!

CODE	DESCRIPTION
KZB	Black

Adjustable Zig Kit

This neat kit makes zig fishing simple. The boom section keeps the rig clear of any bottom debris and features a ball bearing swivel giving rapid tangle-free rotation. The grey low-viz float is unobtrusive in mid-water and extremely buoyant, making it very quick to set the zig at the required depth.

CODE	DESCRIPTION
KKIT2	

Interceptor Floats

These inline floats are highly visible when viewed from above the surface, so they can be clearly seen by the angler, but are almost invisible to fish below the surface. They are available in a variety of sizes, the smallest being just 5g which is perfect for flicking baits out close to the bank. The 15g and 30g sizes are great all-rounders for any situation and there are 50g and 80g versions which can be cast to the horizon! One feature that is a bit different is the quick-change system that allows you to quickly switch from one size of float to another, simply by sliding it off of your main line and using the specially designed quick-change swivel. This is perfect if the fish suddenly move out of range, or drift close in and you don't want to be crashing a heavy controller near them.

KSC120G	Korda 120lb x 4oz (Nett priced item)

Wonder Berry - 150ml (e)

This was the first white Goo. Just getting the white is a huge achievement as the white dye doesn't lend to being mixed. The significance of this development is that you get to keep your hook baits white, a vogue colour that is a proven carp catcher. Smell-wise, this is perhaps one of our riskier ones as it's based on a blend that has been hugely successful in South Africa, the home of the Goo and has a unique medicinal warmth to it that the fish won't have come across before. Wonderberry is attractive in all conditions.

CODE	DESCRIPTION
KG0026	Wonder Berry Supreme - 150ml

GOO / The ultimate liquid attractant

The Goo is a soak, a plug and a spod-mix additive, all rolled into one awesome package. The cloud of attraction that comes off bait treated with Goo has to be seen to be believed, and this is one of the attributes that makes the Goo so revolutionary. But it's not the only one. The feeding triggers and flavour combinations housed in the mysterious liquids have been carefully tweaked to create the best and biggest feeding response.

The Goo was developed by Loutjie Louwies in South Africa, where it has been used to great effect for many years, leading to the dominance of the South African national team in the FIPSeD World Championships. The lads even gave England a beating in their own back yard, at Linear Fisheries, using the Goo.

Smokes have a greater viscosity than Supremes, and a few casts with a little added to your spod or your PVA bags will create the most unique cloud of smell, taste and colour and simply send fish into a frenzy around your hook bait.

The Supremes are slightly softer in colour, but just as effective and are ideal for use in almost every situation. Soak pellets, mix it with water to dampen groundbait or flavour floaters to add a unique edge, add it to PVA, soak skinned tigers, plug boilies; the uses and flavour combinations are endless. The Supremes are perfect for soaking into hook baits and are so natural smelling that their addition really can't be overdone. Having said that, a bottle goes a very long way!

Touchdown - 1000m spool

Touchdown is a versatile all round line that suits every angling situation. Its low stretch maximises indication and casting potential, whilst retaining soft and subtle characteristics. Touchdown sinks well, cutting through the surface film, reducing the bow in the line after casting and concealing itself on the bottom. It also retains amazing knot strength, and abrasion resistance allowing fish to be landed in the most testing of conditions. Touchdown is available in the popular breaking strains of 10lb, 12lb, 15lb and 20lb, covering all angling requirements whether at home or abroad.

Kontour / 200m spool

Kontour is available in 12lb breaking strain only because, during a rigorous testing period, the team decided that the 12lb version was simply the best all-rounder. It casts far better than most fluorocarbons as a result, allowing users to fish over 100 yards, which is rare for a fast-sinking fluorocarbon main line.

CODE	DESCRIPTION
KFC12	12lb (5.4kg), 0.33mm

SUBline / 1000m spool

SUBline is a heavy, co-polymer line that has been designed using the very latest in materials and technology. We have manufactured not only one of the toughest monofilaments we've ever used, but one of the softest and easiest to cast. It sinks admirably well too. The 1000m spools feature line markers every 250m to let the angler know exactly how much line has been used when spooling up.

CODE	DESCRIPTION
SUB10G	10lb (4.5kg), 0.30mm, Green

SUB20B	20lb (9kg), 0.43mm, Brown

Carp Line / 1000m spool

If you're looking for a tough, reliable line that won't cost you the earth, then Carp Line is definitely the one for you! It is amongst the toughest lines on the market and will handle weed and snags better than most lines, but if there are signs of abrasion then it's also inexpensive to re-spool. It also casts and sinks well, behaves superbly on the reel and provides a very high knot strength.

CODE	DESCRIPTION
KCM08	8lb (3.6kg), 0.28mm, Green
KCM10	10lb (4.5kg), 0.30mm, Green
KCM12	12lb (5.4kg), 0.35mm, Green

LINES & HOOK LINKS

LINES & HOOK LINKS

SUBbraid / 450m & 1200m spools

This is a super-fast-sinking main line braid that's available in a subtle SUB-green colouring and two breaking strains. SUBbraid has no stretch, making it perfect for feeling for that all important drop.

CODE	DESCRIPTION
SSB1	15lb (6.8kg), 0.30mm, 450m
SSB2	15lb (6.8kg), 0.30mm, 1200m
SSB3	20lb (9.1kg), 0.34mm, 450m
SSB4	20lb (9.1kg), 0.34mm, 1200m

Mouth Trap / 20m spool

Tie perfectly curved stiff rigs quickly and easily! Mouth Trap's incredibly low memory makes tying even ultra-short rigs simple! Available in three breaking strains and in one colour, a silkweed-green tint.

CODE	DESCRIPTION
KMT15	15lb (6.8kg), 0.43mm, 20m
KMT20	20lb (9kg), 0.47mm, 20m
KMT25	25lb (11.3kg), 0.53mm, 20m

IQ² Fluorocarbon / 20m spool

A unique, soft fluorocarbon that is close to invisible on the lake bed due to its refractive index. It can be used to construct stiff rigs, such as Danny Fairbrass' IQ D-Rig as well as a range of combi-link presentations.

CODE	DESCRIPTION
KIQS10	10lb (4.5kg), 0.32mm, 20m
KIQS12	12lb (5.4kg), 0.35mm, 20m
KIQS15	15lb (6.8kg), 0.40mm, 20m
KIQS20	20lb (9kg), 0.47mm, 20m

IQ Fluorocarbon / 20m spool

IQ is a fluorocarbon which refracts light in almost the same way as water, making it almost invisible when immersed. It is stiffer than normal nylon so improving anti-tangle and anti-eject properties.

CODE	DESCRIPTION
KIQ10	10lb (4.5kg), 20m
KIQ15	15lb (6.8kg), 20m
KIQ20	20lb (9kg), 20m
KIQ25	25lb (11.3kg), 20m

Arma Kord / 20m spool

Widely accepted as one of the best of all the Dyneema leaders. Soft enough to be used on the Continent as a hook length or as a heavy casting leader for long-range fishing and spodding.

CODE	DESCRIPTION
ARMK30	30lb (13.6kg)
ARMK50	50lb (22.7kg)

Arma Kord Sinking / 50m spool

A dark-brown, sinking version of our popular braided Arma Kord leader material.

CODE	DESCRIPTION
ARMKS30	Brown, 30lb (13.6kg)
ARMKS50	Brown, 50lb (22.7kg)

Supernatural / 20m spool

Supernatural is a super-soft, uncoated braid. It's the ideal solid-bag hook link and is also an essential part of the popular combi-link. It is available in two breaking strains, 18lb and 25lb in both green and brown.

CODE	DESCRIPTION
KSNG	18lb (8.2kg), 20m, Weedy Green
KSNB	18lb (8.2kg), 20m, Gravel Brown
KSNG25	25lb (11.3kg), 20m, Weedy Green
KSBN25	25lb (11.3kg), 20m, Gravel Brown

LINES & HOOK LINKS

CODE	DESCRIPTION
KB00M55	25lb (11.3kg), 0.55mm, Green Tint
KB00M65	35lb (15.9kg), 0.65mm, Green Tint

Boom - 15m spool

Boom is a game-changing fluorocarbon! It's our first fluorocarbon that can be crimped, which opens up a world of uses for rig tying. Its prime function is for creating stiff boom sections to help kick the hook bait away from the lead system, something Boom does each and every cast. You can use it to make combi-rigs, or out-and-out stiff rigs, for pop-ups and bottom baits alike. Your imagination is the only limit to its rig applications. Being a fluorocarbon, Boom blends with all lake bed types and, thanks to its subtle, green tint, it's always inconspicuous to carp feeding around it. Boom is available in 0.55mm and 0.65mm, on 15m spools.

SUBline Tapered Main Line / 300m spool

We've taken our proven SUBline and tapered it from a thinner, casting diameter, right up to a thick shockleader diameter, removing the need for leader knots. If the tapered section gets cut off, then all you need to do is to simply reverse the line onto another spool to expose the second tapered section. Tapered SUBline is available in three versions, which are supplied on 300m spools. These versions are 8lb to 40lb, 10lb to 40lb and 12lb to 40lb. Tapered SUBline is available in Sub Brown colour only.

CODE	DESCRIPTION
KTM28	8lb - 40lb (3.6kg - 18.1kg), 0.28 - 0.50mm, Brown
KTM30	10lb - 40lb (4.5kg - 18.1kg), 0.30 - 0.50mm, Brown
KTM33	12lb - 40lb (5.4kg - 18.1kg), 0.33 - 0.50mm, Brown

SUBline Tapered Leaders / 5 x 12m

If your customers prefer a more traditional leader then we now have the answer, in the shape of these SUBline leaders. They're smooth, supple and taper from a low diameter that's perfect for knotting to line of similar diameter, right up to the thick shockleader end that'll take the brunt of the biggest casts. There are three versions available: 8lb to 40lb, 10lb to 40lb and 12lb to 40lb. Each spool holds five, 12-metre leaders that can be cut down to suit the individual's needs. Tapered SUBline leaders are available in Sub Brown colour only.

CODE	DESCRIPTION
KTL28	8lb - 40lb (3.6kg - 18.1kg), 0.28 - 0.50mm, Brown
KTL30	10lb - 40lb (4.5kg - 18.1kg), 0.30 - 0.50mm, Brown
KTL33	12lb - 40lb (5.4kg - 18.1kg), 0.33 - 0.50mm, Brown

Dark Matter Braid / 20m spool

The fastest sinking braid that we could make. It's supple and sinks like a brick to help you make the most inconspicuous rigs imaginable. It features a banded camouflage pattern to help break up its outline.

CODE	DESCRIPTION
KDMB15	15lb (6.8kg), 20m
KDMB20	20lb (9kg), 20m
KDMB30	30lb (13.6kg), 20m

N-Trap Semi-Stiff / 20m spool

N-Trap Semi-Stiff sits in the sweet spot between the relatively supple N-Trap Soft and Hybrid Stiff. It's stiff enough to kick a light hook bait away from the lead and reset itself if rejected by a feeding fish, yet it has a degree of flexibility, which allows it to be used over silt or light weed.

CODE	DESCRIPTION
KNT04	15lb (6.8kg), 20m, Weedy Green
KNT05	20lb (9kg), 20m, Weedy Green
KNT06	30lb (13.6kg), 20m, Weedy Green

KNT22	15lb (6.8kg), 20m, Silt
KNT23	20lb (9kg), 20m, Silt
KNT24	30lb (13.6kg), 20m, Silt

Hybrid Stiff / 20m spool

A robust, stiff, coated braid that is excellent for use over firm spots. It has a stiff, clear coating that helps it to blend with a host of lake bed conditions. It's coating can be stripped back to form a number of bottom-bait and pop-up presentations.

CODE	DESCRIPTION
KHY1	20lb (9kg), 20m, Weedy Green
KHY2	20lb (9kg), 20m, Gravel Brown

Kamo / 20m spool

A super-tough, camouflaged coated hook link. Kamo is also available in higher breaking strains that are essential when targeting the biggest carp in the world, in the most demanding situations (see the 'Euro Zone' section for these).

CODE	DESCRIPTION
KKB15	15lb (6.8kg), 20m
KKB20	20lb (9kg), 20m
KKB30	30lb (13.6kg), 20m

N-Trap Soft / 20m spool

After months of testing we came up with what we believe to be the best soft coated braid on the market. It has a robust, matt coating that won't split when knotted and the inner Dyneema braid is nicely colour-matched to the coating. N-Trap Soft is available in three Safe Zone colours, Weed Green, Gravel Brown and Silt and in three breaking strains. The material is supple enough to lay over bottom contours unobtrusively yet it will still resist tangles.

CODE	DESCRIPTION
KNT01	15lb (6.8kg), 20m, Weedy Green
KNT02	20lb (9kg), 20m, Weedy Green
KNT03	30lb (13.6kg), 20m, Weedy Green

RIG TOOLZ & BACK LEADS

RIG TOOLZ & BACK LEADS

Krimp Tool & Krimps

The Krimp tool makes the the creation of super-short, consistent chod rigs and perfect hinged stiff rigs extremely simple. Each tool comes with a box of small Krimps and a box of large Krimps. Spare Krimps are available.

CODE	DESCRIPTION
KKT	Krimp Tool
KSK06	0.6mm, Small Krimps
KSK07	0.7mm, Large Krimps

Razor Blades

These ultra-sharp, stainless steel blades now feature a serated edge and slice easily through even the toughest braided fishing lines. Bright green handles mean they are easily found if dropped.

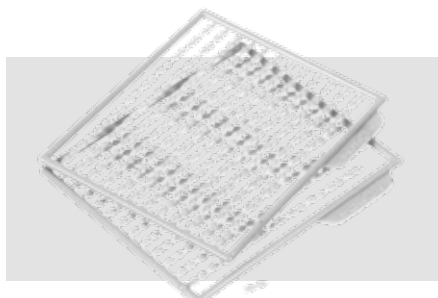

CODE	DESCRIPTION
KRZB	Green

Extenda Stops

The Extenda Stops allow you to increase the length of your hair without the hassle of tying up a new rig. These tough, plastic stops come in three different sizes, which cater for a range of bait types and hair lengths.

CODE	DESCRIPTION
KEXSS	Clear, Small
KEXSM	Clear, Medium
KEXSL	Clear, Large

Hybrid Bait Stops

Simple-yet-effective hair stops.

CODE	DESCRIPTION
KHBS	Clear

Strippa Tool

A rig tool designed to make removing the outer coating on braided hook link materials such as Hybrid Stiff very easy. It is manufactured from aluminium with a hard, anodised finish.

CODE	DESCRIPTION
KSTP	Red

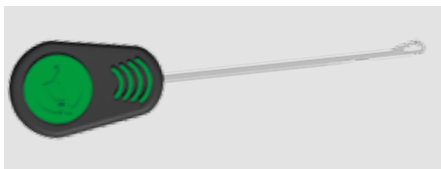

Pulla Tool

A vital, unsung hero of a product that's a tackle-box essential. It has a T-bar handle and stainless hook to help ease knots down tight, straighten hook links or safely steam shrink tubing over a kettle.

CODE	DESCRIPTION
KPUL	Black & Green

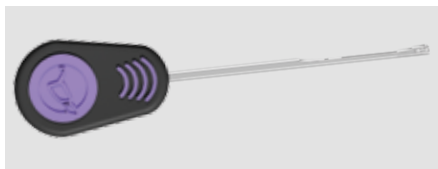

RIG TOOLZ & BACK LEADS

Heavy Latch Needle / 7cm

Perfect for use with boilies and larger particles such as tiger nuts or brazils.

CODE	DESCRIPTION
KBNH	Green

Fine Latch Needle / 7cm

Ideal for use with soft boilies, soft pellets or sweetcorn.

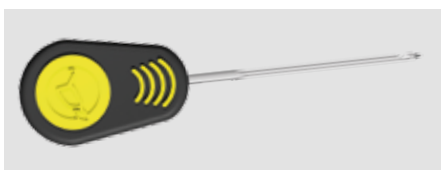

CODE	DESCRIPTION
KBNF	Purple

Heavy Latch Stik Needle / 12cm

The Heavy Latch Stik Needle, finished with a red handle, is ideal for pulling hooklinks through long PVA sticks or constructing stringers.

CODE	DESCRIPTION
KBNS	Red

Braided Hair Needle / 7cm

If you have problems with your hair fibres getting caught in the needle, then this is the one to use. It has no rough edges for fibres to get caught on.

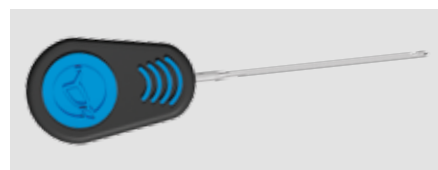

CODE	DESCRIPTION
KBNB	Yellow

Splicing Needle / 7cm

Splicing leadcore is easy with this fine needle.

CODE	DESCRIPTION
KSPN	Orange

Super-Fine Needle / 7cm

For use with small boilies, nuts and sweetcorn.

CODE	DESCRIPTION
KBNBF	Blue

Bait Drill

This bait drill has been designed to drill smoothly, without splitting the hook bait. The drill features an ergonomically shaped, non-slip handle and the drill bit is titanium-plated to resist corrosion. There are two sizes of drill available, 6mm and 8mm.

CODE	DESCRIPTION
KBD6	6mm Bait Drill, Green
KBD8	8mm Bait Drill, Green

Spare Corks / 10 per pack

Quality, buoyant cork sticks that are perfect for creating pop-up or balanced-bait presentations, along with the bait drill. There are two sizes of stick available, 6mm and 8mm.

CODE	DESCRIPTION
KCS6	Spare 6mm Sticks
KCS8	Spare 8mm Sticks

Safe Zone Flying Back Leads / 6 per pack

These interchangeable back leads fly back up the main line on the cast, helping to pin it down many yards behind the lead.

CODE	DESCRIPTION
KFB4	Small - 4g
KFB5	Medium - 5g
KFB75	Large - 7.5g

Intelligent Back Leads / 3 per pack

These clever back leads stay on the line during the fight, but pull free should they become snagged.

CODE	DESCRIPTION
KIB025	0.25oz
KIB05	0.5oz
KIB1	1oz
KIB15	1.5oz

Chod-It Stiff Rig Tool

This versatile tool has been designed to make tying effective chod and hinged stiff rigs easier. It is made from machined aluminium and has a hard, anodized coating. Key features include a mushroom cap for tensioning, a recess for shaping loops and a tapered point for shaping D-rigs.

CODE

KCIT

Naked Chod Safety System

This system makes the naked chod even safer. The system includes three tungsten Chod Sleeves and three Barrel Beads, as well as 12 No-Trace Beads. The tungsten-impregnated parts will help ensure that your chod is fished on the bottom, where you want it.

CODE

KNCS

Leadcore Chod Safety System

This system has been designed to make fishing the helicopter rig on leadcore completely safe. The kit includes 10 Barrel Beads, 10 Chod Sleeves and 15 No-Trace Beads.

CODE

KCSL

No-Trace Beads / 25 per pack

Spare beads that work with both the Naked Chod Safety System and the Leadcore Chod Safety System. Supplied in packs containing 25 beads.

CODE

KSCB

Line Saver Bead / 8 per pack

A clever little tungsten bead that has a tapered section which, when used with the naked chod, allows the swivel to run up and onto it during the fight, saving the line from wear and tear.

CODE

KL SB

DESCRIPTION

Green

Bait Floss / 50m Spool

This flat, waxed bait floss has been developed to securely grip pop-ups when tying them to a rig ring. Run a cigarette lighter flame around the floss once the bait is tied on and it becomes transparent.

CODE

KBF

DARK MATTER & KABLE

Dark Matter Ring Swivel Leader

Fused plastic leaders that have been tinted to precisely match the lake bed. They feature two tungsten bands along their length, which help to pin your tackle to the lake bed in the area of your rig. This version ends in a ring swivel, making it perfect for lead clip and inline lead arrangements.

CODE	DESCRIPTION	CODE	DESCRIPTION
KSZ30	Weed	KSZ33	Silt
KSZ31	Gravel	KSZ34	Clear
KSZ32	Clay		

Dark Matter Hybrid Lead Clip Leader

Fused plastic leaders that have been tinted to precisely match the lake bed. They feature two tungsten bands along their length, which help to pin your tackle to the lake bed in the area of your rig. This version ends in a Hybrid Lead Clip.

CODE	DESCRIPTION	CODE	DESCRIPTION
KSZ35	Weed	KSZ38	Silt

KSZ37	Clay		

Dark Matter Heli Leader

Fused plastic leaders that have been tinted to precisely match the lake bed. They feature two tungsten bands along their length, which help to pin your tackle to the lake bed in the area of your rig. This version is for use with helicopter or chod rigs and incorporates the no-trace chod safety system.

CODE	DESCRIPTION	CODE	DESCRIPTION
KSZ45	Weed	KSZ48	Silt
KSZ46	Gravel	KSZ49	Clear
KSZ47	Clay		

Dark Matter Tungsten Rig Putty

Dark Matter Rig Putty is the densest putty available. This is achieved through the use of high levels of super-heavy tungsten granules. It remains stable over a whole range of temperatures and is extremely easy to shape and mould. It can be used to counterbalance pop-ups or pin down other rig components and is available in two colours, weed and gravel.

CODE	DESCRIPTION
KDMPW	Weed
KDMPG	Gravel

Dark Matter Tungsten Tubing / 2 metres

Dark Matter Tubing is super supple to allow it to lay flush with the contours of the lake bed. High levels of tungsten give the tubing an elevated density, meaning it stays pinned to the bottom at all times. Dark Matter Tubing is available in three colours, Weed Green, Gravel Brown and Silt. It's easy to thread and fits all Korda tail rubbers and lead clips.

CODE	DESCRIPTION
KDMTW	Weed
KDMTG	Gravel
KDMTS	Silt

Kable Leadcore / 7m & 25m Spool

Korda realised that to truly camouflage a leadcore leader, breaking up its outline was the way forward. So, the development team designed a banded pattern of subtle colour changes to do just that. Although it has a spliced breaking strain in excess of 50lb, Kable is limp enough to drape across underwater terrain.

CODE	DESCRIPTION
KA7WG	Weed / Silt, 7m
KA7GB	Gravel, 7m
KABWG	Weed / Silt, 25m
KABGB	Gravel, 25m

PVA Leadcore Leader - 3 x 1m

These readymade leadcore leaders have been designed for speedy solid-bag fishing – allowing you to take advantage of what might be short feeding windows! Thanks to a spliced loop, they can be simply looped on and off your main line, which means that you can tie several bags in preparation for hauling and loop a new one on in an instant! The leaders are tied with 1ft lengths of our proven Kable leadcore and feature a size-eight ring swivel, which makes them ideal for use with inline leads. We recommend tying a figure-of-eight loop in the end of your main line to allow for rapid changing of bag setups.

CODE	DESCRIPTION
KPVALL	Weed / Silt, 7m

Ring Swivel Leadcore Leaders / 3 x 1m

Perfectly spliced, 1m Kable leadcore leaders in Gravel Brown and Weed/Silt. Terminating in a ring swivel, this version is perfect for use with inline leads.

CODE	DESCRIPTION
LLRSW	Weed, 1m
LLRSG	Gravel, 1m

Heli Leadcore Leaders / 3 x 1m

Perfectly spliced, 1m Kable leadcore leaders in Gravel Brown and Weed/Silt. This version features the Leadcore Safety System, making it the ideal leader for fishing helicopter style.

CODE	DESCRIPTION
LLHW	Weed, 1m
LLHG	Gravel, 1m

Hybrid Lead Clip Leadcore Leaders / 3 x 1m

Perfectly spliced, 1m Kable leadcore leaders in Gravel Brown and Weed/Silt. Featuring the ever reliable Hybrid Lead Clip, this leader is a great all-rounder.

CODE	DESCRIPTION
LLHCW	Weed, 1m
LLHCG	Gravel, 1m

EXTREME RANGE

EXTREME RANGE

Arma Kord XT / 20m spool

An increased-diameter, ultra-high performance leader material. Available in a dark camou green to blend well with a range of lake bed types.

CODE	DESCRIPTION
ARMK85	Green, 85lb (38kg)

Dura Kord / 20m & 15m spool

Heavy-duty, spliceable leader material with a dark, weedy green camou colour. It is made from a Dyneema/polyester blend that absorbs water and sinks well. Its makeup means that it's soft enough to lie well over bottom contours and it has an increased diameter to prevent it from cutting into subsurface snags and act as an effective rubbing leader.

CODE	DESCRIPTION
DURA45	Green, 45lb (6.8kg), 20m
DURA65	Green, 65lb (6.8kg), 15m

Apex Braid / 450m & 1200m spools

A high-performance Dyneema-blended main line braid that casts extremely well. Markers every 150m on the spools help to ensure that your reels are perfectly filled.

CODE	DESCRIPTION
APEXF30	30lb (13.6kg), 0.23mm, 450m
APEXF50	50lb (22.7kg), 0.36mm, 450m
APEXB30	30lb (13.6kg), 0.23mm, 1200m
APEXB50	50lb (22.7kg), 0.36mm, 1200m

XT Snag Leader / 100m spool

A super-tough, heavy monofilament snag leader, available in a subtle dark brown colour. Supplied on 100m spools.

CODE	DESCRIPTION
SNAG50	Brown, 50lb (22.7kg), 0.55mm, 100m
SNAG60	Brown, 60lb (27kg), 0.65mm, 100m

Kable XT Extreme Leadcore / 15m spool

A stepped-up version of our popular Kable leadcore that's been designed for use in the snaggiest of environments. The outer sheath has been blended with Dyneema to make it supple, yet incredibly strong and abrasion resistant and the thick 0.8mm wire makes it sink like a brick. When spliced, it breaks at an eye-watering 90lb. Kable XT is supplied on 15m spools.

CODE	DESCRIPTION
KABXTG	Weedy Green, 70lb (31kg), 15m
KABXTB	Gravel Brown, 70lb (31kg), 15m

Kamo / 20m spool

A super-tough, camouflaged coated hook link in the breaking strains that are essential when targeting the biggest carp in the world, in the most demanding situations. Kamo is also available in lower breaking strains (see the 'Lines and Hooklinks' section for details).

CODE	DESCRIPTION
KKB50	50lb (22.7kg), 20m
KKB65	65lb (29.4kg), 20m
KKB80	80lb (36.3kg), 20m

DROP ZONE & BAITING

DROP ZONE & BAITING

CODE	DESCRIPTION
KSPB	Fluoro Green, 20lb (9.1kg), 0.16mm, 300m
KMAB	Dark Green, 20lb (9.1kg), 0.16mm, 300m

Spod Braid - 300m spool

Thanks to its low diameter, this braid casts superbly well. You'll also notice that it has a rather unusual fluoro green colour, which helps to deter seagulls when baiting up with a throwing stick or float fishing. It is hard-wearing and has high knot strength and with 300m on each spool you should be able to spool up more than once with backing. We recommend Arma Kord is used as a shock leader with Spod Braid.

Marker Braid - 300m spool

This braid casts superbly well, thanks to its low diameter, and transmits the feel of the lake bed accurately back to your rod tip, allowing you to find the very best feeding areas with your marker float setup. Finished in dark green it is hard-wearing and has high knot strength, plus with 300m on each spool you should be able to spool up more than once with backing. We recommend Arma Kord is used as a shock leader with Marker Braid.

Marker Floats / 2 Per Pack

These super-strong marker floats are extremely buoyant, ensuring that they pop up in the heaviest of weed. The floats are coloured high-viz orange or yellow so you can see them from long distances.

CODE

DZMF

Drop Zone Marker Float Kit

A pack that includes all the kit you need to set up a marker rod, including a pair of Probe feature-finding leads in 3oz and 4oz, a buoyant marker stem, Drop Zone Marker Float and special beads.

CODE

KMK

Drop Zone Marker Stems / 2 Per Pack

These specially designed rigid stems feature a foam cylinder, which helps keep the stem upright and proud of any low bottom weed. A quick-change clip at the bottom of the stem allows leads to be changed depending on the casting range needed.

CODE

KFSXL	X-large

Skyliner Mk II

This aerodynamic spod is fantastic for introducing decent amounts of bait with precision. It's ideal for distances up to about 100 yards or so.

CODE	DESCRIPTION
KSP1	Orange Nose Cone

Skyraider

The ultimate spod for distance casting. The spod is nose-heavy, with stabilising flights that give you maximum pull through the air.

CODE	DESCRIPTION
KSP5	Orange Nose Cone

Spare Spod Tails / 3 Per Pack

A pack of three spare tails that will fit any of the Korda spods.

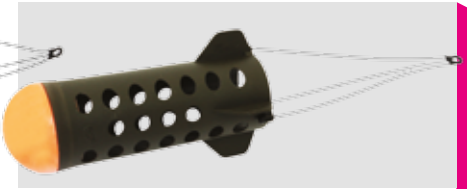

CODE	DESCRIPTION
KSST	

Marker Elastic / 6m

The great carp-fishing public asked, and we listened. They wanted a marker elastic from us, and this Korda-green version grips the line well and is easily visible in low-light conditions. Once finished with, it can be nipped off the line without fuss.

CODE	DESCRIPTION
KME	Korda Green

Mini Skyliner

The ideal spod for introducing bait with minimum disturbance. It's 25% smaller than the standard Skyliner so can be cast with ease on a standard carp rod.

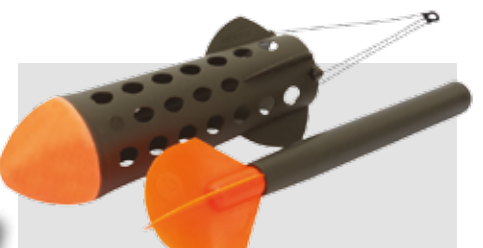

CODE	DESCRIPTION
KSP3	Orange Nose Cone

Skywinder / 20m Spool

A modified version of the now legendary Skyraider. Designed to be used as a boilie rocket, or to deliver maggots at range with reduced spillage.

CODE	DESCRIPTION
KSP7	Orange Nose Cone

Skyraider & Marker Float Pack

A spod and marker float in one handy kit.

CODE	DESCRIPTION
KKIT1	

Spare Marker Flights / 2 Per Pack

The black flight is ideal in bright conditions as it remains clearly visible against glare from the surface of the water. The orange is a perfect all-rounder and can be seen clearly at distance.

CODE	DESCRIPTION
KSMFO	Orange
KSMFB	Black

Krusha

The principle behind the Krusha was simple. We wanted to devise something that could crush up literally any bait out there within seconds; whether that be tiger nuts, pellets or air-dried boilies. Created as an ultra-strong and robust device the Krusha uses its sharp teeth to demolish anything that you put before it.

Finished in a carpy, olive green colour and available in both large and small, the Krusha is perfect for the day-to-day carp angler. To use, simply fill the Krusha on the section that states 'FILL', place the other section over the top and begin to twist. The more vigorously you twist, the smaller the items will be. Grinding pellets to a mere dust creates a mighty fine bag mix and if you're a fan of solid bags, look no further. The boilie crumb will also be a fantastic addition to a stick mix or spod concoction. Experiment with literally anything and you could create the ultimate mix!

CODE	DESCRIPTION
KKS100	Small
KKS120	Large

Infuza

Most anglers appreciate that the inspiration to develop a new product comes from being faced with a recurring problem, and here at Korda Developments we've recently seen an increase in the need for a no-fuss hook bait storage facility, which is why we decided to develop this little gem, the Infuza. Boosted hook baits have been a popular technique in carp fishing for many years; the use of oils, flavour additives and bait soaks have seen a resurgence in the last couple of years and the use of such products in our own fishing really did highlight the need for a product that satisfied our requirements.

We needed to design something robust and easy to use, which allowed excess liquid to drain from the surface of the hook baits, ensuring an even coating. The internal tray allows the baits to sit above the plug, but be coated with a simple shake of the pot. Lastly, we wanted to design a quality piece of tackle. We think that the Infuza does everything that an angler requires from this type of product.

CODE	DESCRIPTION
KINZS	Small
KINZL	Large

KUTTER & DISTANCE STICKS

Kutter

The Krusha allows smashes out loads of perfectly chopped boilies in double-quick time. There are three Kutters in the range that suit 16mm, 20mm and 25mm baits. To use them, simply depress the button, remove the plunger and drop in a few baits. Then use the plunger to force the baits down the Kutter, whereupon the inner blade slices them perfectly – and it's practically effort-free! The resulting halved baits are superb in spod mixes and won't roll off the spot at all, due to their shape – which is a bonus when targeting sloping gravel humps, marginal slopes or moving water.

CODE	DESCRIPTION
KUT16	14mm - 16mm Baits
KUT20	18mm - 20mm Baits
KUT25	22mm - 25mm Baits

Distance Sticks

These distance sticks make fishing accurately child's play. Rather than simply produce a me-too product, we decided to produce the best sticks that we could. That meant teaming up with JAG Products, who engineer to the highest standards we could find! Each stick is a thing of beauty, with special grooves to prevent the line from spilling off, causing the dreaded bird's nest. They also come supplied with a T-Bar, which can be used to drive the specially designed point into even the hardest of ground. Integrated spirit levels in the top of each stick allow for perfect positioning, and pop out to reveal a cavity, which accepts an isotope to allow you to wrap-up, even at night!

COG & HELI LEADS

COG & HELI LEADS

COG System - 3 Lead Clips, 3 Tail Rubbers & 3 Booms per pack

COG stands for Centre of Gravity. This lead system is so called because the rig is attached to the lead in the exact centre of gravity, ensuring that a fish picking the bait up hits the full weight of the lead immediately. Best used over firm lake beds, there are two lead shapes available for use with the system, the Flat Pear and Flat Distance.

One point worth noting is that the COG boom sections are numbered (on the barrel of the swivel) because it's essential that they are used with the correct lead. If you use the wrong boom with the wrong lead, the setup simply won't work as intended.

CODE	DESCRIPTION
KCOG1	Kit 3 for Flat Distance Swivel 2/2.5oz
KCOG2	Kit 4 for Flat Distance Swivel 3/3.5oz

Marker Probe Lead

Korda Probe Marker Leads are available in either 2 & 3 oz or 3 & 4 oz. These marker leads with probes on the sides allowing you to feel the Lake bed with more accuracy. They are packaged in blister packs of two leads, a 2oz with a 3oz and a 3oz with a 4oz.

These leads will remain uncoated as bare lead is far more effective at transmitting the contours of the lake bed more than a standard lead. Identify weed, silt, clay, gravel; you name it you can fish on it, or avoid it!

Bait-up Method Feeders

A feeder that always lands the right way up and the hookbait will always fall away from the feeder, increasing your chances of a quick bite.

TEXTURED LEADS

TEXTURED LEADS

Textured leads

The coating of these textured leads is matt, so it simply won't reflect light in the same way as a conventionally coated lead. The textured finish will pick up sediment from the lake bed, adding to the overall subtle effect. In fact, these leads get better and better with use! The characteristics that allow the leads to take on sediment will also allow the leads to absorb flavours, glugs or dips. Leaving a few leads to soak in Goo is sure to add an extra dimension of attraction.

'The Big Fish Off' Book - To Accompany the First Series

The Big Fish Off 'Guide to Fishing' is perfect for anyone looking to get into fishing as it gives an in-depth look at some of the tackle and techniques that were used during the show, as well as being a great read for more experienced anglers as it covers a wide variety of species and some more advanced techniques, as well as some of the behind-the-scenes stuff that the teams got up to during the making of the latest series of five programmes. With 248 pages in total it is packed full of information such as checklists of exactly what you need for that type of fishing, as well as some great diagrams that show exactly how to set up some of the rigs used during The Big Fish Off, and everyone is bound to learn something from it!

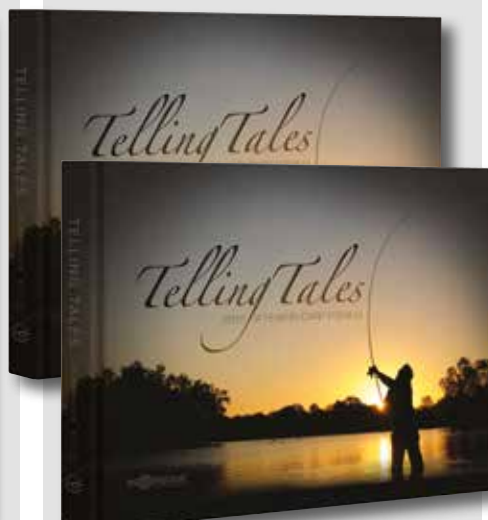

CODE	DESCRIPTION

Carp Fishing Masterclass / Ali Hamidi

Over 330 pages and 32 chapters of detailed carp catching information, this is a must-read for any carp angler, irrespective of experience.

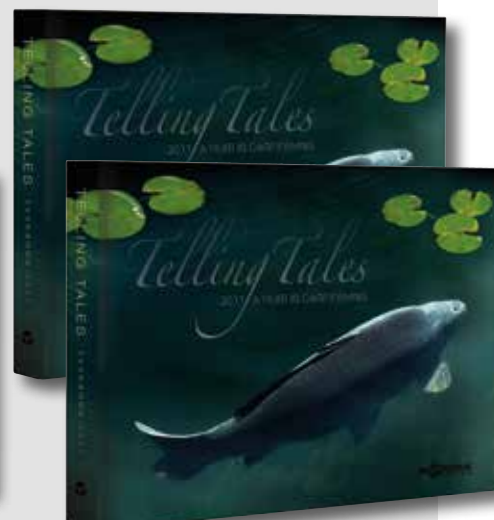

CODE	DESCRIPTION
KBK2	Carp Fishing Masterclass (VAT exempt)

Telling Tales / Volume 1

Telling Tales is a vibrant collection of stories written by Korda staff, charting their carp fishing year as it unfolded. Contributions from the likes of Danny Fairbrass, Damian Clarke, Ali Hamidi and Darrell Peck make for an enthralling read that all carp anglers will enjoy and return to again and again. Of course, each tale is subtly interwoven with the tactics behind the captures, as is the Korda way.

CODE	DESCRIPTION
KYB01	Telling Tales 2010 (VAT exempt)

Telling Tales / Volume 2

The second in the series and another year in the angling exploits of Team Korda.

Telling Tales 2010 and 2011 are also sold as a pair.

Dark Matter Carp Rigs

The 'go to' rig of many Team Korda members, it is tied with super-heavy Dark Matter braid and a Wide Gape hook. A piece of silicone tube ensures the hair exits the shank at the optimum point whilst a shrink tube kicker maximises its hooking potential.

CODE	DESCRIPTION
KCR095	Dark Matter Rig Barbed, Size 4, 20lb
KCR096	Dark Matter Rig Barbed, Size 6, 20lb
KCR097	Dark Matter Rig Barbed, Size 8, 15lb
KCR098	Dark Matter Rig Barbed, Size 10, 15lb
KCR100	Dark Matter Rig Barbless, Size 4, 20lb
KCR101	Dark Matter Rig Barbless, Size 6, 20lb
KCR102	Dark Matter Rig Barbless, Size 8, 15lb
KCR103	Dark Matter Rig Barbless, Size 10, 15lb

IQ D-Rigs

This highly successful rig features Dan's tricky whipping knot, which can be tough to tie. The rigs are available in barbed and barbless variants, and in sizes four, which is tied to 15lb IQ2, six, which is tied to 12lb IQ2 and eight, which is tied to 10lb IQ2.

CODE	DESCRIPTION
KCR056	IQ D-Rig Barbed, Size 4 Kurv, 15lb
KCR057	IQ D-Rig Barbed, Size 6 Kurv, 12lb
KCR058	IQ D-Rig Barbed, Size 8 Kurv, 10lb
KCR059	IQ D-Rig Barbless, Size 4 Kurv, 15lb
KCR060	IQ D-Rig Barbless, Size 6 Kurv, 12lb
KCR061	IQ D-Rig Barbless, Size 8 Kurv, 10lb

N-Trap DF Rigs

An exact, ready-tied version of the rig that Danny Fairbrass has used for the majority of his carp fishing. The DF rig features a Wide Gape hook and N-Trap coated braid and comes with free Extenda stops in the pack.

CODE	DESCRIPTION
KCR035	N-Trap DF Barbless, Size 6 Wide Gape, 15lb
KCR036	N-Trap DF Barbless, Size 8 Wide Gape, 15lb
KCR038	N-Trap DF Barbed, Size 4 Wide Gape, 30lb
KCR039	N-Trap DF Barbed, Size 6 Wide Gape, 30lb
KCR040	N-Trap DF Barbed, Size 8 Wide Gape, 20lb
KCR041	N-Trap DF Barbless, Size 4 Wide Gape, 30lb
KCR042	N-Trap DF Barbless, Size 6 Wide Gape, 30lb
KCR043	N-Trap DF Barbless, Size 8 Wide Gape, 20lb

KD Ready Rigs

A combination of the hair position and a balanced bait help the hook find a hold more often than not. These ready-tied versions feature N-Trap and Kurv Shank hooks, which are proven to be the best components for this rig. The KD Carp rigs are available in both barbed and barbless and in X-Strong Euro versions that feature 30lb N-Trap.

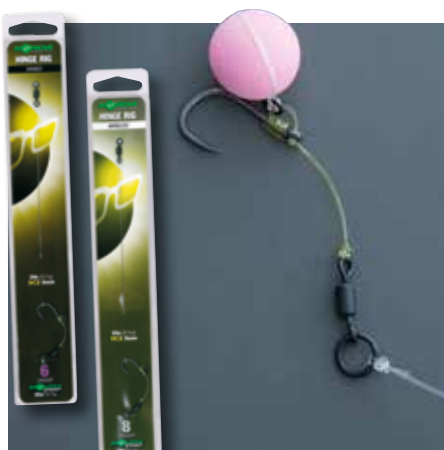

CODE	DESCRIPTION
KCR050	N-Trap KD Rig Barbed, Size 4 Kurv, 30lb
KCR051	N-Trap KD Rig Barbed, Size 6 Kurv, 30lb
KCR052	N-Trap KD Rig Barbed, Size 8 Kurv, 30lb
KCR053	N-Trap KD Rig Barbless, Size 4 Kurv, 30lb
KCR054	N-Trap KD Rig Barbless, Size 6 Kurv, 30lb
KCR055	N-Trap KD Rig Barbless, Size 8 Kurv, 30lb

Zig Rigs / 3 Per Spool

A range of zig rigs, tied with our 8lb Zig Line and size-10 Mixa hooks. Supplied on lightweight foam spools, along with three foam hook baits in black, yellow and pink.

CODE	DESCRIPTION
KCR062	Ready Zigs 6' Barbed, Size 10, 8lb
KCR063	Ready Zigs 8' Barbed, Size 10, 8lb
KCR064	Ready Zigs 10' Barbed, Size 10, 8lb
KCR065	Ready Zigs 12' Barbed, Size 10, 8lb
KCR066	Ready Zigs 6' Barbless, Size 10, 8lb
KCR067	Ready Zigs 8' Barbless, Size 10, 8lb
KCR068	Ready Zigs 10' Barbless, Size 10, 8lb
KCR069	Ready Zigs 12' Barbless, Size 10, 8lb

Hinge Rig

There is arguably no better big-fish rig. The hook section is beautifully curved to allow the hook to spin into prime hooking position every time a fish mouths the bait and the IQ boom will kick the hook bait away from the lead on the cast, ensuring perfect presentation.

CODE	DESCRIPTION
KCR088	Hinge Rig Barbed, Size 4 Choddy, 20lb
KCR089	Hinge Rig Barbed, Size 6 Choddy, 20lb
KCR090	Hinge Rig Barbed, Size 8 Choddy, 20lb
KCR091	Hinge Rig Barbless, Size 4 Choddy, 20lb
KCR092	Hinge Rig Barbless, Size 6 Choddy, 20lb
KCR093	Hinge Rig Barbless, Size 8 Choddy, 20lb

Solidz PVA Bag Rigs / 3 per pack

These rigs come tied using the highly popular and very versatile Wide Gape hook pattern and 18lb Supernatural braid in weedy green, and at 4.5 inches in length are the perfect choice for PVA bag fishing. The hooking potential is enhanced via the use of a short piece of silicon tubing over the eye of the hook to help it flip round and take a hold in a carp's mouth.

CODE	DESCRIPTION
KCR104	PVA Bag Rig Barbed, Size 4 Wide Gape, 18lb
KCR105	PVA Bag Rig Barbed, Size 6 Wide Gape, 18lb
KCR106	PVA Bag Rig Barbed, Size 8 Wide Gape, 18lb
KCR107	PVA Bag Rig Barbless, Size 4 Wide Gape, 18lb
KCR108	PVA Bag Rig Barbless, Size 6 Wide Gape, 18lb
KCR109	PVA Bag Rig Barbless, Size 8 Wide Gape, 18lb

Krank Rig

Available in barbed and barbless versions, in sizes 2 to 10, the new Krank Rigs utilise the Kamo coated hook link material with a small section stripped back to allow the ultra-wide-gape Krank pattern to take hold consistently. They are tied with a size-eight swivel to allow attachment to lead clips and inline leads.

CODE	DESCRIPTION
KCR072	Krank Rig Barbed Size 2, Kamo 30lb
KCR073	Krank Rig Barbed Size 4, Kamo 20lb
KCR074	Krank Rig Barbed Size 6, Kamo 15lb
KCR075	Krank Rig Barbed Size 8, Kamo 15lb
KCR076	Krank Rig Barbed Size 10, Kamo 15lb
KCR077	Krank Rig Barbless Size 2, Kamo 30lb
KCR078	Krank Rig Barbless Size 4, Kamo 20lb
KCR079	Krank Rig Barbless Size 6, Kamo 15lb
KCR080	Krank Rig Barbless Size 8, Kamo 15lb
KCR081	Krank Rig Barbless Size 10, Kamo 15lb

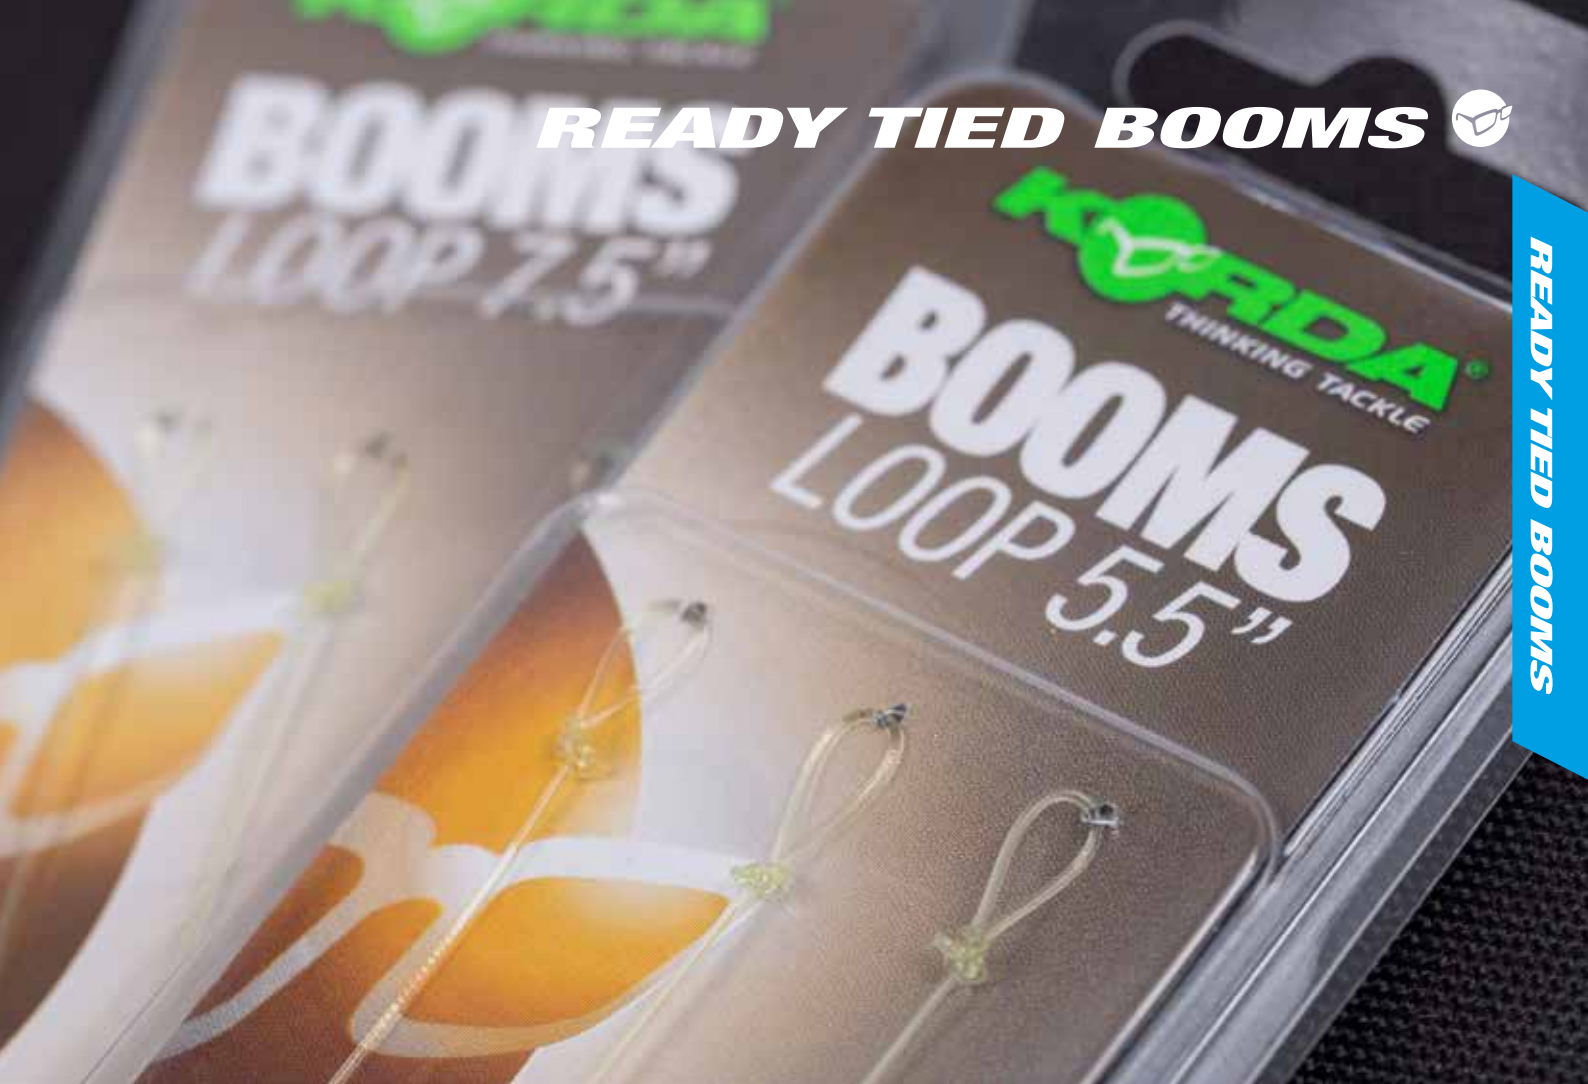

Multi Rig

The Multi Rig is a superbly versatile rig, which allows the hook to be changed in a flash. They are most often used as pop-up rigs, but can be used with bottom baits too! Our versions are constructed from Kamo coated braid and a Krank Choddy hook. (Rig putty not included).

CODE	DESCRIPTION
KCR082	Multi Rig Barbed, Size 4 Krank Choddy, 30lb
KCR083	Multi Rig Barbed, Size 6 Krank Choddy, 20lb
KCR084	Multi Rig Barbed, Size 8 Krank Choddy, 15lb
KCR085	Multi Rig Barbless, Size 4 Krank Choddy, 30lb
KCR086	Multi Rig Barbless, Size 6 Krank Choddy, 20lb
KCR087	Multi Rig Barbless, Size 8 Krank Choddy, 15lb

READY TIED BOOMS

READY TIED BOOMS

Ready Tied Booms

Using these Ready Tied Booms in conjunction with a helicopter set-up creates the ultimate tangle free presentation. These are ideal for making your own Spinner Rig, favoured by a lot of the Korda anglers. They are available in two versions - regular loop and QC - to suit all anglers' needs.

CODE	DESCRIPTION

Complete Mark II Stow Indicators - (Isotopes not included)

Stows are indicators that allow unparalleled sensitivity when using slack or tight lines. Korda acquired the rights to the design from Carl Pashley, the originator of the Elstow bobbins, because we thought that the concept truly represented a step forward in indicator design. The new improved line clip helps transmit any line movement into positive indications that help you to understand what's happening at the rig end – Stows are particularly good at picking up line bites. The bobbins are available as ready-to-go systems, or as separate, interchangeable components. The chains with short steel extensions are suitable for Delkim-sized alarms, whereas the chains with long extensions are for smaller, Neville-type alarms.

Black & Whites - Indication System

The Black & Whites are a bobbin that we believe offers the ultimate in performance and functionality, alongside classic style and versatility. There are four sizes in the range, and each comes with two interchangeable weights, so depending on the situation you are faced with, and what you want your indicators to achieve, you can customise the weight and tension applied to your line. Also supplied are two different length chains - the standard 6 inch and a longer 9 inch version - for you to choose between, depending on personal preference. The Hockey sticks that come with the Black & Whites are fully compatible with the Stow range of indicators, so once you have attached the magnetic bayonet-style hockey sticks supplied with your Black & Whites, you can change between styles instantly, without having to unscrew your alarms. The Black & Whites have a mechanism that runs through the body of the bobbin, allowing you to adjust the grip-strength of the line clip with a simple twist, again allowing for unrivalled customisation of the hanger. The Black & Whites are a two-sided design, one a solid white or black plastic, and the other a clear plastic that houses the super-bright new Mini Isotopes.

Black & Whites / White Bobbins

The white version of the highly acclaimed Black & Whites indication system. Four sizes are available to suit your angling situation. The M, L & XL heads are compatible with the Stow Lite isotopes. The Small head requires a Mini Stow Lite.

4th DIMENSION SUNGLASSES

4th DIMENSION SUNGLASSES

4th Dimension
EYEWEAR

Polarising Sunglasses

Polarising sunglasses are perhaps the single most important item of tackle that you can own. They cut down glare to allow you to see your quarry as they move around below the surface. So, it was only natural that we'd release a range of our own... welcome to the 4th Dimension. The range comprises seven pairs of glasses in total, across three styles, Wraps, Classics and Aviators.

Wraps

These wrap-around glasses are available with gloss black (brown lens) and gloss olive frames (yellow lens). Their snug-fitting design cuts out as much light as possible, giving you the best possible view of your quarry.

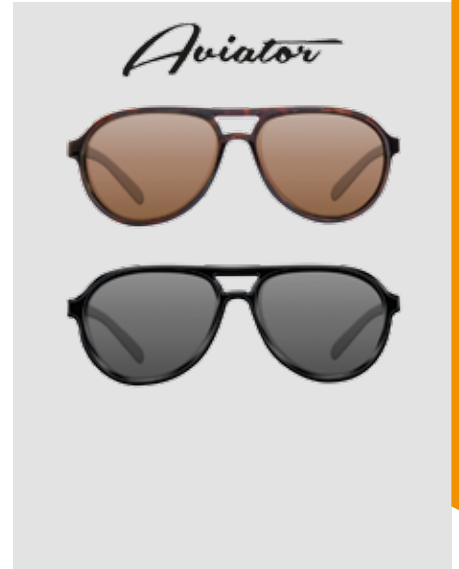

CODE	DESCRIPTION
K4D01	Black Frames / Brown Lens
K4D02	Olive Frames / Yellow Lens

Classics

This timeless style is uber-cool, and there are three versions to choose from. First, we have the matt-tortoiseshell Classics with a brown lens. Then, there's the matt-black framed version, which boasts grey lenses, and finally there's the demi-tortoiseshell models with yellow lenses.

CODE	DESCRIPTION
K4D05	Matt Tortoise Shell Frames / Brown Lens
K4D06	Black Frames / Grey Lens
K4D07	Demi Tortoise Shell Frames / Yellow Lens

Aviators

Slimline, fashionable frames in either tortoiseshell with brown lenses or matt-black with grey lenses. The large lenses give great coverage in bright conditions.

CODE	DESCRIPTION
K4D03	Black Frames / Grey Lens
K4D04	Tortoise Shell Frames / Brown Lens

Sunglasses Polarised Wraps

A less expensive version of the original 4th Dimension Eyewear, these sunglasses are designed to eliminate surface glare with a low price tag. This drastic reduction in brightness enables the angler, when looking from above, to help see beneath the surface layers and into that 4th Dimension where our quarry live.

CODE	DESCRIPTION
K4D10	Black Frames / Brown Lens

Lanyards

These new Korda Lanyards will make sure you'll never lose or damage your polarised sunglasse again. They can be very easily attached to the Korda 4th Dimension Polarised Sunglasses and wraps.

CODE
K4DL

Singlez / Available in Stainless Steel and Super-Light Black Anodised Aluminium

This is a new concept in rod support that's set to turn conventional buzz bar setups on their head! It's the brainchild of Danny Fairbrass, and is produced to staggeringly high standards by stainless wizard JAG Products. Singlez combines the beauty and aesthetics of single banksticks with supreme solidity and convenience, not to say attention to detail that's simply breathtaking! The Singlez system can be used as a two-rod setup or a three-rod setup, in hard or soft ground and even on wooden or block-paved platforms and towpaths. Mix and match the uprights and buzz bars to create the setup that best matches your needs.

The system is also available in a super-light black aluminium for those that prefer their gear to be a little lighter and more understated. All the components are the same as the stainless version.

Uprights / Stainless or Super-Light Black

The uprights are available in three lengths. Longer uprights should be attached to the front buzz bar if raised rod tips are preferred. Each upright is easily extended, so it's easy to get your rods sitting at the perfect angle.
